

## **UK POWER ENGINEERS LTD QUALITY POLICY STATEMENT**

UK Power Engineers Ltd (UKPE) is a UK based engineering design consultancy and recruitment company. We are a group of professional engineers who design, innovate, engineer smart solutions, provide technical specialist service, plan and manage electricity power and energy projects.

We believe that the best approach to meeting our customers' expectations and driving performance improvement is to employ effective systems and processes that are consistent throughout the business.

We are committed to obtaining and maintaining UKAS accredited ISO 9001 Certification for Quality through compliance with their requirements and continuous improvement. Our commitment includes our clients' requirements and applicable statutory and regulatory requirements.

All of our employees are required to deliver our services through the mandatory processes which ensure that quality standards are maintained and measurable.

We continually seek feedback from our clients, employees and suppliers and use this to help us improve the way we work and interact with all who engage with our business.

We undertake an annual audit of our business processes and all quality systems which differentiate our company.

Each and every member of our team has a direct responsibility for delivering in accordance with UKPE's methods of working.

Ongoing training and development of our people underpins our proactive approach to continuous improvement to our quality management system.

The Managing Director has full responsibility for Quality within the business.

This Policy Statement will be displayed prominently, and available to view by all staff and external persons who have an interest. It will be kept under review to ensure its continuing relevance.
